SUPERIOR BOLTING SOLUTIONS®

Titan E-Tite™ Wind Turbine HUB ROTATING Tool

Another SUPERIOR BOLTING SOLUTION® from Titan Technologies. This adaptor converts your Titan Electric Torque Wrench into a tool to **rotate the Hub on wind turbines with the blades attached.**

The system is used to reposition the hub and blades of your wind turbine for maintenance and installation functions. It mounts to the gear box on the out-board side of the gearbox and adapts to the **ETite 4650 Electric Wrench**
